

AFRICA SUSTAINABLE TOURISM CARE FOUNDATION

Africa Sustainable Tourism Care Foundation a registered grassroots, non-profit tourism NGO focused on biodiversity conservation and creating sustainable livelihoods and helping communities adapt to climate change in Uganda through a diverse and holistic sustainable tourism practices and other environmental sustainable businesses to alleviate poverty, fight gender inequality, empower local communities and encourage the conservation of cultural and natural heritage.

We established the humanitarian volunteer program with the aim of fostering an Inter-Cultural Exchange Program focusing on development of **understanding** and **mutual respect** between communities and nations by promoting the **exchange of ideas and experiences**. We focus to work towards human justice and peace through support of cultural, socio-economic and the preservation and conservation of natural ecosystems.

Africa Sustainable Tourism Care Foundation works to promote ethical volunteering to maximize the beneficial developmental impacts in the communities where volunteering takes place, minimize the negative impacts and to ensure volunteers have a worthwhile experience. This is an Initiative To Engage US Universities And Colleges On The Long Term Development Of Rural Communities In Uganda Through Social Justice Based Direct Service Projects. Contact immediately to join!

Africa Sustainable Tourism Care Foundation (ASTCF) Projects

Each ASTCF project builds upon previous projects in order to provide the community with the most impactful and sustainable results. Alternative Break group are integrated into ongoing ASTCF projects. Below are some of projects and social justice issues that ASTCF focuses on.

1. Medical & Health Project

The Medical and Health Project encompasses a number of fields and medical professionals and students are sorely and urgently needed. Participants work directly in communities that have limited to no access to medical care. Participants duties will vary depending largely on your background and skill, For example, if you are a registered nurse, medical doctor, lab technician, and paramedic or have a trained medical skill then you can participate in patient care such as diagnosing, injections, IV starts and lab work or assist doctors and nurses with providing free medical consultations, taking vitals, distributing medications, dental clinic and assisting with prenatal and pediatric

2. Rural Community Economic Development Project

Projects focus on improving the quality of life and providing economic stability to marginalized rural communities. Participants work directly with the community, learning about their challenges while developing and executing long time economic development

goals. The objective is to empower the communities with the tools and resources necessary to provide for their families. The participants assist with developing business plans for local businesses, developing small grant proposals, raise funds for local women projects, working with women's groups or cooperatives and helping to foster entrepreneurship skills.

3. Clean Water and Sanitation projects

In 2010, the United Nations declared access to clean water as a human right. Many areas of rural Uganda still do not have access to sustainable water resource Participants will work to provide clean water to communities in need by expanding, repairing or building water systems, including water wells, and Bore holes.
